

**Medical Education Department,
Faculty of Medicine, Suez Canal University (FOM, SCU)**

Vision:

To sustain leading medical education in Egypt and the Eastern Mediterranean Region towards better quality medical curricula, better medical educators, and providing better chances for medical students to study in a better learning environment. Our vision is extended to encourage establishing Medical Education Departments in every health professions education institution in Egypt and the Region by the year 2030.

Mission:

To provide a center for excellence in medical education, and to establish and develop innovative training programs that could reach scholars from all around Egypt, the Eastern Mediterranean Region, and the world by distance learning in addition to providing face to face learning opportunities to those who can afford it. The FOM, SCU Med Education Department prepares and qualifies a cadre of experts who can help develop and reform medical curricula locally, nationally, regionally, and internationally.

Values:

Our programs are:

- Equitable (reaches scholars where ever they are anywhere in the world)
- Affordable (wide range of tuition fees that suits a large scale of applicants)
- Adaptable (to the health professionals' busy schedules)
- Fair (we have very active mentoring system that helps every students take his/her full rights)
